**5. Old Business**

5.1. What it means to be a SOHS Student - Connie Evans 5:37pm

Crafted ideas of who you are as a person at last meeting. Connie shows two videos

Connie asks for ideas of what 21<sup>st</sup> century students have.

C/Q: Everyone has work experience now.

What are some expectations for the future as a student?

C/Q: less time in class except for things that are necessary to be hands on like some labs.

C/Q: I had a couple people from my set today tell me that we talk a lot about interprofessional learning, but we never meet any students from any of the programs that we potentially work with. Maybe we can do a health sciences BBQ or something that all students from the school could attend and we could get these connections.

A: its in the process

A: Game of schools is a great first opportunity to connect and get the conversations started.
