**Staff:** Amy Smith, the BCITSA Program/Clubs Coordinator

**Guest Speakers:** Alicia Parayno

**Hung Le opens the meeting at 5:55 pm.**

## 1. Old Business

### a. LAN Party

The LAN Party was amazing. We broke our own record and reached 170 participants. Everyone had fun, and we came pretty close to breaking even on costs. Can't wait for the next one.

## 2. New Business

### a. Guest Speaker Alicia Parayno, Chair of the School of Health Sciences

Alicia wants students to be aware that councilors are available for students who are feeling stressed out.

My Wellness Plan, resource on mental illness for getting in touch with help for.

### b. SA Mentorship program

This program introduces an industry professional to each mentee (student participant) who comes in for 2 hours a month to mentor a student. Email Julia at [services@bcitsa.ca](mailto:services@bcitsa.ca) for an application.

## 3. Question Period

Q/C: I thought Computing students had 24 hour access to computer labs. I was with another student and security said they had to consult a list to see if they were pre-approved for extended hours access.

A: There is a list, Maureen keeps this. Students in first and second term are only able to stay in labs until 1:00am if they are on the Extended Access List. Third term and beyond have access to their option labs 24/7.

Q/C: Russ Brownlow wants to start a bridge between DTC business students and computing students.

Q/C: "Whoozin" invites being mailed twice, people saying it was annoying.

## 4. Next Meeting: December 5, 2013 in Council Chambers at 5:30pm

## 5. Adjournment

Hung adjourns the meeting at 6:10 pm
