- BCIT didn't make a statement about this incident and they should have
- The SA is now facing media backlash because the Publishing Manager told the Link journalism students to be careful what they write about the incident without knowing the facts or doing their homework
  - This message was misconstrued by the media
  - The students were not told what to write, only encouraged to focus on some of the positive things that have happened at BCIT lately
  - Two journalism students were suspended from their duties at the Link because they forwarded an internal e-mail that was confidential
  - The suspension has been lifted

  - BCIT is not willing to budge on this because the system would not be fool proof for each instructor putting their schedule on line
