

KEY INFORMATION FOR FACULTY

WHAT BCITSA WELLNESS ADVOCATES DO

The BCITSA Wellness Advocates seek to educate students, staff, and faculty on the correct procedures to follow should conflict arise. These efforts ensure that both academic and non-academic misconduct matters are settled judiciously and in a timely manner. This greatly diminishes the risk that a cut-and-dry case may be summarily dismissed due to lack of due process and procedural fairness.

HOW THE WELLNESS ADVOCATES HELP YOU

Students are held accountable to the Policies & Procedures that govern the institution, and they are responsible for knowing and understanding them. The BCITSA Wellness Advocates provide free, confidential assistance to students navigating these Policies & Procedures, to ensure clarity, fairness and due process for all parties.

The BCITSA Wellness Advocates welcome referrals from Staff and Faculty, and regularly respond to phone calls, emails and meeting requests in a collaborative effort. The BCITSA Advocates are also available to attend meetings as a support for students. We recommend that Staff and Faculty encourage students to connect with the BCITSA Advocacy office prior to any meetings they are planning to have.

The BCITSA Advocacy office encourages all Staff and Faculty to direct students to the SA website for information regarding some of BCIT's most important policies
