Open Forum

- Student concerns (bring up any issues or worries your set has!)
 - o Brett: Biz course miscommunication around lab assignments, tried talking to teachers
 - o Maxwell: Android labs 3717, the lab due dates are different for people, but assignment dates are the same, across all sets
 - o Caroline: DB course, in a lab, the teacher walked out of the classroom for a zoom call for a different class (ALI REZA?), grading for assignments and labs unfair, gave back marks for work done after the midterms, EDIT: Unsure if attending another class or if it's a side hustle, if you ask questions in the lab, he is helpful, but will leave randomly
 - o Caroline: OOP 1 course, Paul, does not put in effort for course preparation, is very hands-on for teaching, doesn't explain enough
 - o Caroline: C course, Jiho lee? Need more practice questions, gave unhelpful answers
 - o T4: ISA instructor, Nabil, midterm was on stuff not taught, midterm was unfair and did not cover topics learned, based all on assignment 1, gave faulty answer key, curved midterm very hard to pass people, canceled 2 classes to mark a midterm, shows up late, issues were brought up in discord server but no reply, communication overall was ineffective, used other university's lab
 - o Jay: Tejinder, extremely disorganized, both lab and lecture on the same day so missed it because of the holiday.
 - o In Young: Tejinder, Reuses material, is disorganized, old material, doesn't teach anything, lectures suck, lectures irrelevant to topics covered in assignments, and teaches from his own textbook. No chances to learn outside of assignments. Does not mark deliverables. No feedback (4800). Instructions to set up dev env were lacking.
 - o Jay: Stats, no correlation between labs and lectures. Not enough practice for lecture material to prepare for quizzes.

- Mike: Comm teacher, James, is great. Liable to spend time lecturing about not going to lecture.
- Bruce: Bad 4800 supervisor. Docs marks for something out of their control
