Resource Allocation

Student Fees cover 83% of the **BCITSA** administrative and services expenses, as per 2017 financials. The remaining expenses are covered by revenues from other sources. What this means is that for every dollar we spend on our administration and services, we only need to collect \$0.83 in student fees. Our retail, pub, print shop and sponsorship revenues make up the difference. Please review our Annual Management Report and Audited Financial Statements for further information.
