

STARTING A CLUB – FAQs

[Can I start a club if there is already a similar club active at BCIT?](#)

In order to avoid unnecessary competition, students should try to collaborate with existing clubs if they have similar goals or activities. Reach out to existing clubs to find out how you can work together.

[What kinds of questions will the Clubs Committee ask about our club?](#)

The Clubs Committee wants to determine whether the proposed club will enhance student life at BCIT and serve the needs of the student population. They also want to know that you've put a lot of thought into starting this club. They may ask:

- What kinds of events or activities does the club plan on holding?
- Is this club of interest to students across the school, or only from a specific program?
- What kind of fundraising will the club do to support its activities?
- What need or purpose does your club address at BCIT?
- What are some challenges or obstacles the club might face?

[What support does the Student Association at BCIT offer clubs?](#)

Sanctioned clubs can rent space on campus for free, get discounts at Campus Print, receive event support, access to funding, and much more. Clubs must be in compliance with BCIT and SA policies and procedures to be eligible for this support.

[What happens if our club isn't successful?](#)

If the club doesn't take off, it will be de-sanctioned after a period of inactivity or non-compliance. Any club assets will be held in trust by the Student Association.
